

Electric Hand-held Cut-off Saw SM-410

The electric hand-held cut-off saw SM-410 is suitable for separating cuts in concrete or masonry. Its roller guide permits the creation of long, straight cuts. The distance between the guide pulleys comes up to 100 mm, thus enabling to mount a straightedge of 100 mm width as a guide rail to the wall and to guide the saw on it.

The air-cooled drive motor with a softstart is protected against overload by a multifunctional electronic. The cooling of the diamond saw blade is effected by means of a regulabel water connection.

order-No.	53 35
max. cutting depth	158 mm
max. blade-Ø	400 mm
bore hole of blade	25,4 mm
speed of cutting shaft	2.500 rpm
electric motor	3,0 kW/230 V/50 Hz/14 A
PRCD-switch	yes
dimensions L/W/H	320/435/420 mm
weight	12,5 kg
